

Sahiba Singh, MD

Statement from Sahiba Singh, MD

Northwell Health

New York, NY

The opportunity to serve as FIT Co Chair will be a perfect amalgamation to combine my passion for Geriatrics, my drive for advocacy and my interest in learning from one another and paying it forward by collaborating with other fellows across the nation.

Through this opportunity, I hope to use my former experiences (of Chief Residency, working as AMA ambassador, and AMA state delegate in the past) and combine it with the passion of collaborating with other learners and growing the Geriatric Medicine community into something bigger (with one small step at a time)

It is a great time to be a Geriatrician! (now more than ever) and I am excited about using my experience, and energy to grow together and push the field forward in every shape and form possible.
