MAKE LASTING CONNECTIONS AT #AGS20: JOIN THE ANNUAL MEETING MENTOR PROGRAM!

The AGS Annual Scientific Meeting Mentor Program matches students, residents, fellows, and junior faculty with geriatrics professionals from across the country. Through the AGS Junior Faculty Special Interest Group, dedicated volunteers work to review every single application to create impactful mentoring relationships that often last well beyond the annual meeting.

Take a recent feedback survey as an example: More than 95% of respondents who participated in 2019 noted they'd be returning for 2020. One participant confirmed: "I think this is a great program and I have had the opportunity to work with some of those I mentored for years after."

If you're joining us in Long Beach this May, you won't want to miss out on this program! Sign in to MyAGSOnline to join as a mentor or a mentee (or both!) today. The

program applications are listed under the "Get Involved at AGS" menu tab at MyAGSOnline.AmericanGeriatrics.org.

One last bit of advice from a survey respondent: "I encourage junior faculty right out of fellowship to sign on as mentees and mentors. They don't often realize that they can be matched with a student or resident and how much impact they can have." If you're considering signing on as a first-time mentor, the AGS Annual Scientific Meeting Mentor Program will welcome you with open arms!

Don't Forget: If you want to participate in this in-person program, you'll need to be registered for #AGS20! **Register at Meeting.AmericanGeriatrics.org** in order to receive an early-bird discount on top of your reduced membership price. ♦
